# Language and IDE Modularization and Composition with MPS

Reviewer Feedback (second round) Cover Letter

Dear Reviewers,

Once again, thank you very much for the second round of feedback. Like last time, attached is a new version of the paper. Since this time there are no fundamental/general comments I have regarding the paper or your feedback, the cover letter is shorter, and I have included the reviews as text files with my replies (which are marked with the **->** sign).

Regards,
Markus Völter
